[DOI: [10.1117/1.JNP.17.039901](https://doi.org/10.1117/1.JNP.17.039901)]

This article [*J. Nanophoton.* **17**(3), 036005 (July, 2023) <https://doi.org/10.1117/1.JNP.17.036005>] contained a typographical error. Double primes were erroneously published as single primes in Eq. (2). Additionally, an incorrect bracket has been removed from the equation. The original equation is shown below.

$$\underline{\underline{\epsilon}}_r(z) = \begin{cases} \underline{\underline{S}}_y(\chi') \bullet (\epsilon'_b \hat{u}_x \hat{u}_x + \epsilon'_c \hat{u}_y \hat{u}_y + \epsilon'_a \hat{u}_z \hat{u}_z) \bullet \underline{\underline{S}}_y^{-1}(\chi'), & 0 < z < L, \\ \underline{\underline{S}}_y(\pi - \chi'') \bullet (\epsilon''_b \hat{u}_x \hat{u}_x + \epsilon''_c \hat{u}_y \hat{u}_y + \epsilon''_a \hat{u}_z \hat{u}_z) \bullet \underline{\underline{S}}_y^{-1}(\pi - \chi''), & L < z < P, \end{cases} \quad (2)$$

The corrected equation:

$$\underline{\underline{\epsilon}}_r(z) = \begin{cases} \underline{\underline{S}}_y(\chi') \bullet (\epsilon'_b \hat{u}_x \hat{u}_x + \epsilon'_c \hat{u}_y \hat{u}_y + \epsilon'_a \hat{u}_z \hat{u}_z) \bullet \underline{\underline{S}}_y^{-1}(\chi'), & 0 < z < L, \\ \underline{\underline{S}}_y(\pi - \chi'') \bullet (\epsilon''_b \hat{u}_x \hat{u}_x + \epsilon''_c \hat{u}_y \hat{u}_y + \epsilon''_a \hat{u}_z \hat{u}_z) \bullet \underline{\underline{S}}_y^{-1}(\pi - \chi''), & L < z < P, \end{cases} \quad (2)$$

The article was corrected on 28 July 2023.
