Volume 9826

Proceedings of SPIE 0277-786X, V. 9826

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Cyber Sensing 2016, edited by Igor V. Ternovskiy, Peter Chin, Proc. of SPIE Vol. 9826,
982601 · © 2016 SPIE · CCC code: 0277-786X/16/\$18 · doi: 10.1117/12.2245242

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a six-digit CID article numbering system structured as follows:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v	<i>Conference Committee</i>
vii	<i>Introduction</i>

SESSION 1 RISKS AND MITIGATIONS

9826 02	OS friendly microprocessor architecture: Hardware level computer security [9826-1]
9826 05	Network reconstruction via graph blending [9826-4]
9826 06	Identifying compromised systems through correlation of suspicious traffic from malware behavioral analysis [9826-5]

SESSION 2 NEW CONCEPTS FOR SENSING

9826 0A	Investigating end-to-end security in the fifth generation wireless capabilities and IoT extensions [9826-16]
---------	---

SESSION 3 LEARNING AND SOCIAL ASPECTS OF CYBER

9826 0B	Hybrid sentiment analysis utilizing multiple indicators to determine temporal shifts of opinion in OSNs [9826-6]
9826 0C	Social relevance: Toward understanding the impact of the individual in an information cascade [9826-7]
9826 0D	Application of actor level social characteristic indicator selection for the precursory detection of bullies in online social networks [9826-8]
9826 0H	Behavior-based network management: A unique model-based approach to implementing cyber superiority [9826-12]

Authors

Numbers in the index correspond to the last two digits of the six-digit citation identifier (CID) article numbering system used in Proceedings of SPIE. The first four digits reflect the volume number. Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.

Conference Committee

Symposium Chair

David A. Logan, BAE Systems (United States)

Symposium Co-chair

Donald A. Reago Jr., U.S. Army Night Vision & Electronic Sensors Directorate (United States)

Conference Chairs

Igor V. Ternovskiy, Air Force Research Laboratory (United States)

Peter Chin, Draper Laboratory (United States) and Boston University (United States)

Conference Program Committee

Chad D. Heitzenrater, Air Force Research Laboratory (United States)

Tony C. Kim, Air Force Research Laboratory (United States)

Michael A. Kolodny, U.S. Army Research Laboratory (United States)

Tien Pham, U.S. Army Research Laboratory (United States)

Uttam Kumar Majumder, Air Force Research Laboratory (United States)

Session Chairs

1 Risks and Mitigations

Igor V. Ternovskiy, Air Force Research Laboratory (United States)

Peter Chin, Draper Laboratory (United States)

2 New Concepts for Sensing

Igor V. Ternovskiy, Air Force Research Laboratory (United States)

Peter Chin, Draper Laboratory (United States)

3 Learning and Social Aspects of Cyber

Igor V. Ternovskiy, Air Force Research Laboratory (United States)

Peter Chin, Draper Laboratory (United States)
