*Published by*  
SPIE

**Volume 11712**

Proceedings of SPIE 0277-786X, V. 11712

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Metro and Data Center Optical Networks and Short-Reach Links IV, edited by Atul K. Srivastava,  
Madeleine Glick, Youichi Akasaka, Proc. of SPIE Vol. 11712, 1171201 · © 2021 SPIE  
CCC code: 0277-786X/21/\$21 · doi: 10.1117/12.2596738

Proc. of SPIE Vol. 11712 1171201-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Metro and Data Center Optical Networks and Short-Reach Links IV*, edited by Atul K. Srivastava, Madeleine Glick, Youichi Akasaka, Proceedings of SPIE Vol. 11712 (SPIE, Bellingham, WA, 2021) Seven-digit Article CID Number.

---

**Paper Numbering:** *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

# Contents

---

## AI AND SECURITY IN NETWORKS

---

- 11712 05 **Machine-learning-based equalization for short-reach transmission: neural networks and reservoir computing (Invited Paper)** [11712-2]
- 11712 07 **Quantum networks in the UK (Invited Paper)** [11712-4]

---

## TRANSCIVER TECHNOLOGIES

---

- 11712 08 **Transmitter and receiver solutions for VCSEL exploitation in access and metro networks (Invited Paper)** [11712-5]
- 11712 09 **Latest standardization trend for leading edge high-speed optical transceivers** [11712-6]
- 11712 0A **Multi-Tb/s photonic transceivers for metro optical network connectivity evolution** [11712-7]
- 11712 0B **High temperature AlGaInAs-based 25g DML-DFB lasers operating in O-band for data center use** [11712-8]
- 11712 0C **Evaluation of low-complexity digital coherent receivers for short-reach transmission systems** [11712-9]

---

## COMPONENTS AND RELATED TECHNOLOGIES

---

- 11712 0D **Photonic integrated nodes for next-generation metro optical networks (Invited Paper)** [11712-10]
- 11712 0E **Development of optical coupling technologies for Si-photonics-die embedded package substrate (Invited Paper)** [11712-11]
- 11712 0F **Global insights into the key technology enabling the exponential growth of digital communication networks** [11712-12]
- 11712 0G **The path to 1Tb/s and beyond datacenter interconnect networks: technologies, components, and subsystems (Invited Paper)** [11712-13]

---

## NETWORK SLICING

---

- 11712 0K **Enabling service provisioning and quality maintenance in sliceable optical networks** [11712-17]

## NOVEL TRANSMISSION SYSTEMS

---

- 11712 0L     **Single-lane >100 Gb/s CAP-based data transmission over VCSEL-MMF links using low-complexity equalization (Invited Paper) [11712-18]**
- 11712 0M     **Recent trends in coherent free-space optical communications (Invited Paper) [11712-19]**
- 11712 0N     **ADC/DAC resolution tolerance improvement by implementing probabilistic shaping distributions in PAM and QAM modulation schemes [11712-20]**
