Volume 13051

Proceedings of SPIE 0277-786X, V. 13051

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Artificial Intelligence and Machine Learning for Multi-Domain Operations Applications VI, edited by
Peter J. Schwartz, Benjamin Jensen, Myron E. Hohil, Proc. of SPIE Vol. 13051,
1305101 · © 2024 SPIE · 0277-786X · doi: 10.1117/12.3037019

Proc. of SPIE Vol. 13051 1305101-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *Artificial Intelligence and Machine Learning for Multi-Domain Operations Applications VI*, edited by Peter J. Schwartz, Benjamin Jensen, Myron E. Hohil, Proc. of SPIE 13051, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

ix *Conference Committee*

SESSION 1 MISSION PLANNING I

13051 03 **Battlefield information and tactics engine (BITE): a multimodal large language model approach for battlespace management** [13051-3]

SESSION 2 COMPUTER VISION I

13051 05 **DeepTie: deep learning-based image geo-registration** [13051-6]

13051 06 **Comparing visual co-registration methods for UAV and satellite RGB imagery with semantic filtering of key points** [13051-7]

13051 07 **Collaborative object labeling in IoBT: a distributed approach for enhanced battlefield perception** [13051-8]

SESSION 3 MULTI-AGENT SYSTEMS

13051 08 **Simulation experimentation of swarms: methodologies and analyses** [13051-11]

13051 09 **Route planning optimization for symbiotic swarm robotics** [13051-12]

13051 0B **Learning-based metareasoning for decision-making in multiagent pursuit-evasion games** [13051-9]

SESSION 4 VIRTUAL, AUGMENTED, AND MIXED REALITY

13051 0C **Evaluating the efficacy of a haptic feedback, 360° treadmill-integrated virtual reality framework and longitudinal training on decision-making performance in a complex search-and-shoot simulation** [13051-15]

13051 0D **Towards virtual reality-based telemanipulation systems for military applications** [13051-13]

- 13051 OE **Digital augmentation of direct view optics using a holographic waveguide** [13051-14]
- 13051 OF **Understanding the impact of trust on performance in a training system using augmented reality**
[13051-16]

SESSION 5 CAUSALITY

- 13051 OH **A comparison of causal discovery and explainable AI (XAI) for image datasets** [13051-17]
- 13051 OI **Improved face transformer model for facial emotion recognition in human-machine collaboration** [13051-18]
- 13051 OJ **Causal discovery for image datasets via feature extraction (Best Paper Award)** [13051-19]

SESSION 6 DECISION SUPPORT

- 13051 OK **A methodology for representing and assessing artificial intelligence decision aids within modeling and simulation** [13051-21]
- 13051 OL **A generalized framework for multicriteria decision making under uncertainty** [13051-22]

SESSION 7 AI ASSURANCE FOR MDO APPLICATIONS: JOINT SESSION WITH CONFERENCES 13051 AND 13054

- 13051 ON **Learning behavior of offline reinforcement learning agents** [13051-24]
- 13051 OO **When the occasion comes, the proverb comes: value alignment via proverbial bank and synthetic rules** [13051-25]

SESSION 8 MISSION PLANNING II

- 13051 OQ **AI agent community of practice pilot competition** [13051-27]
- 13051 OR **A multimodel approach to modeling intelligent combat behaviors for wargaming (Best Student Paper Award)** [13051-28]
- 13051 OS **Streamlined AI architecture for wargaming** [13051-29]

SESSION 9 AI/ML AND UNMANNED SYSTEMS: JOINT SESSION WITH CONFERENCES 13051 AND 13055

- 13051 OT **Generation of 3D LWIR thermal maps based on deep learning SLAM: feasibility and evaluation** [13051-31]
- 13051 OU **Leveraging foundation models for scene understanding in human-robot teaming** [13051-32]

SESSION 10 EDGE COMPUTING

- 13051 OV **MLOps at the edge in DDIL environments** [13051-33]
- 13051 OW **Adaptive predictive modeling with online learning: addressing data drift challenges in historical data for distributed inferencing** [13051-34]
- 13051 OX **Stochastic optimization of inference execution on tactical edge networks** [13051-35]
- 13051 OY **Task-agnostic feature extractors for online learning at the edge** [13051-36]
- 13051 OZ **Accurate and computational efficient estimation with nonlinear statistical models** [13051-37]

SESSION 11 COMPUTER VISION II

- 13051 11 **Efficient fine-grained automatic target recognition through active learning for defense applications** [13051-38]
- 13051 12 **On comparing multiple approaches for classifying vessels in imagery** [13051-40]
- 13051 13 **Recent advances on generative models for semantic segmentation: a survey** [13051-41]

SESSION 12 MISSION PLANNING III

- 13051 14 **Constrained deep reinforcement learning for maritime platform defense** [13051-42]
- 13051 15 **Improving flight planning efficiency through machine learning** [13051-43]

SESSION 13 DATA INTEGRATION

- 13051 18 **Vector symbolic open source information discovery** [13051-46]
- 13051 19 **Enabling cross-platform sensor co-registration for distributed situational awareness** [13051-47]

SESSION 14 CYBER

- 13051 1B **Lessons learned in designing a cyber reinforcement learning competition** [13051-49]
- 13051 1C **Using large language models to protect information search in multidomain operations**
[13051-50]
- 13051 1D **Dynamic reinforcement learning for network defense: botnet detection and eradication**
[13051-51]
- 13051 1E **Semisupervised learning with data augmentation for raw network traffic detection** [13051-52]
- 13051 1F **Zero-shot learning for raw network traffic detection** [13051-53]

POSTER SESSION

- 13051 1G **Physics-informed neural networks for modeling hysteretic behavior in magnetorheological dampers** [13051-54]
- 13051 1H **Evading deep learning-based DGA detectors: current problems and solutions** [13051-55]
- 13051 1I **Machine learning attacks and defenses for vehicular cyber physical systems** [13051-56]
- 13051 1J **Physics-informed neural networks for scientific modeling: uses, implementations, and directions**
[13051-57]
- 13051 1L **Optimizing neural network using clustering for resource constrained environment** [13051-62]
- 13051 1M **Examining multi-input pipelines for the service degradation point** [13051-63]
- 13051 1N **Investigating the mission impact of non-kinetic variables in the operational environment**
[13051-26]
- 13051 1O **Coordinated maneuver in ground robotics for multiagent systems** [13051-10]

DIGITAL POSTER SESSION

- 13051 1P **The confluence of PSO and MDO: a bibliometric perspective** [13051-59]
- 13051 1Q **A comparative study: fuzzy logic and ANN in addressing inverse depletion** [13051-60]
- 13051 1R **Predicting the dynamics of a capsule-shaped equilibrium curve chaotic system using recurrent neural networks** [13051-61]
- 13051 1S **Image inpainting based on adaptive generative models** [13051-64]
- 13051 1T **SLAM in XR: a bibliometric analysis of its application in virtual, augmented, and mixed reality** [13051-66]

Conference Committee

Symposium Chairs

Tien Pham, The MITRE Corporation (United States)
Douglas R. Droege, L3Harris Technologies, Inc. (United States)

Symposium Co-chairs

Ann Marie Raynal, Sandia National Laboratories (United States)
Ravi Ravichandran, BAE Systems (United States)

Program Track Chair

Latasha Solomon, DEVCOM Army Research Laboratory
(United States)

Conference Chairs

Peter J. Schwartz, The MITRE Corporation (United States)
Benjamin Jensen, Marine Corps University (United States)

Conference Co-chair

Myron E. Hohil, DEVCOM - Armaments Center (United States)

Conference Program Committee

Tarek Abdelzaher, University of Illinois (United States)
Nathaniel D. Bastian, U.S. Military Academy (United States)
Brayden Hollis, Air Force Research Laboratory (United States)
Jeffrey Hudack, Air Force Research Laboratory (United States)
Oscar Munoz, DEVCOM Army Research Laboratory (United States)
Tien Pham, The MITRE Corporation (United States)
Alun D. Preece, Cardiff University (United Kingdom)
Katie Rainey, Naval Information Warfare Center Pacific
(United States)
Christopher R. Ratto, Johns Hopkins University Applied Physics
Laboratory, LLC (United States)
Ravi Ravichandran, BAE Systems (United States)
Danda B. Rawat, Howard University (United States)
Kelly K. D. Risko, U.S. Army DEVCOM Aviation and Missile Center
(United States)
Latasha Solomon, DEVCOM Army Research Laboratory
(United States)

Bruce Swett, Northrop Grumman Corporation (United States)
Michael Wolmetz, Johns Hopkins University Applied Physics
Laboratory, LLC (United States)

Conference Review Committee

Ryan A. Elwell, DEVCOM C5ISR (United States)
Vincent J. Velten, Air Force Research Laboratory (United States)
Hoa G. Nguyen, Office of Naval Research Global (Japan)
Tiffany Raber, U.S. Army Combat Capabilities Development
Command (United States)
Justine P. Rawal, U.S. Army Research Laboratory (United States)
