SPIE

Volume 8038

Proceedings of SPIE, 0277-786X, v. 8038

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

Author(s), "Title of Paper," in *Atmospheric Propagation VIII*, edited by Linda M. Wasiczko Thomas, Earl J. Spillar, Proceedings of SPIE Vol. 8038 (SPIE, Bellingham, WA, 2011) Article CID Number.

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID number.

Contents

vii *Conference Committee*

SESSION 1 PERFORMANCE, MODELING, AND SIMULATION

- 8038 02 **Monte-Carlo-based multiple-scattering channel modeling for non-line-of-sight ultraviolet communications (Invited Paper)** [8038-01]
R. J. Drost, T. J. Moore, B. M. Sadler, U.S. Army Research Lab. (United States)
- 8038 03 **Performance modeling of the effects of aperture phase error, turbulence, and thermal blooming on tiled subaperture systems** [8038-02]
C. L. Leakeas, S. R. Capehart, R. J. Bartell, S. J. Cusumano, Air Force Institute of Technology (United States); M. R. Whiteley, MZA Associates Corp. (United States)
- 8038 04 **Practical calculation of the beam scintillation index based on the rigorous asymptotic propagation theory** [8038-03]
M. Charnotskii, Zel Technologies, LLC (United States) and National Oceanic and Atmospheric Administration (United States); G. J. Baker, Lockheed Martin Space Systems Co. (United States)
- 8038 05 **Fading probability density function of free-space optical communication channels with pointing error** [8038-05]
Z. Zhao, R. Liao, Michigan Technological Univ. (United States)

SESSION 2 ATMOSPHERIC MEASUREMENTS

- 8038 06 **Characterizing aerosol extinction in the UV-NIR spectral range** [8038-06]
G. Gimmetstad, D. Roberts, Georgia Tech Research Institute (United States)
- 8038 07 **Validation of technique to hyperspectrally characterize the lower atmosphere with limited surface observations** [8038-07]
R. M. Randall, S. T. Fiorino, M. F. Via, A. D. Downs, Air Force Institute of Technology (United States)
- 8038 08 **Phase screen simulations of laser propagation through non-Kolmogorov atmospheric turbulence** [8038-08]
V. S. R. Gudimetla, Air Force Research Lab. (United States); R. B. Holmes, Boeing LTS Inc. (United States); T. C. Farrell, Air Force Research Lab. (United States); J. Lucas, Boeing LTS Inc. (United States)
- 8038 09 **Measurements of atmospheric parameters using the SOR atmospheric monitor** [8038-09]
E. J. Spillar, Air Force Research Lab. (United States)

SESSION 3 LASER COMMUNICATION I

- 8038 0A **Observation and analysis of aero-optic effects on the ORCA laser communication system (Invited Paper)** [8038-10]
D. T. Wayne, R. L. Phillips, L. C. Andrews, T. Leclerc, P. Sauer, Florida Space Institute (United States)
- 8038 0B **Free-space optical channel propagation tests over a 147-km link** [8038-11]
J. C. Juarez, D. W. Young, J. E. Sluz, J. L. Riggins II, The Johns Hopkins Univ. Applied Physics Lab. (United States); D. H. Hughes, Air Force Research Lab. (United States)
- 8038 0C **Characterization of impact ionization engineered InGaAs avalanche photodiodes** [8038-12]
H. R. Burris, L. M. Thomas, C. I. Moore, W. R. Smith, D. S. Rabinovich, W. S. Rabinovich, M. S. Ferraro, M. J. Vilcheck, L. L. Summers, U.S. Naval Research Lab. (United States); W. R. Clark, W. D. Waters, OptoGration Inc. (United States)
- 8038 0D **Analysis of fading in the propagation channel for the ORCA laser communication system** [8038-13]
P. R. Sauer, R. L. Phillips, L. C. Andrews, D. T. Wayne, T. T. Leclerc, Florida Space Institute (United States)
- 8038 0E **Evaluation of a control algorithm for mobile FSO node alignment** [8038-14]
D. Zhou, The Univ. of Oklahoma, Tulsa (United States); P. G. LoPresti, The Univ. of Tulsa (United States); H. Refai, The Univ. of Oklahoma, Tulsa (United States)

SESSION 4 LASER COMMUNICATION II

- 8038 0F **Observations of atmospheric effects for FALCON laser communication system flight test (Invited Paper)** [8038-15]
T. M. Fletcher, J. Cunningham, D. Baber, D. Wickholm, T. Goode, B. Gaughan, S. Burgan, A. Deck, ITT Corp. (United States); D. W. Young, J. Juarez, J. Sluz, The Johns Hopkins Univ. Applied Physics Lab. (United States); J. Cohen, P. Stallings, B. K. Stadler, Air Force Research Lab. (United States)
- 8038 0G **PDF computations for power-in-the-bucket measurements of an IR laser beam propagating in the maritime environment** [8038-16]
C. Nelson, U.S. Naval Academy (United States) and The Johns Hopkins Univ. (United States); S. Avramov-Zamurovic, R. Malek-Madani, U.S. Naval Academy (United States); O. Korotkova, Univ. of Miami (United States); R. Sova, The Johns Hopkins Univ. Applied Physics Lab. (United States); F. Davidson, The Johns Hopkins Univ. (United States)
- 8038 0H **Near the ground laser communication system: anisoplanatic studies based on the PSF measurements** [8038-17]
A. V. Sergeev, M. C. Roggemann, C. Demars, Michigan Technological Univ. (United States)
- 8038 0I **Evaluation of the performance of a fiber-bundle-based optical wireless link** [8038-18]
P. G. LoPresti, The Univ. of Tulsa (United States); D. Zhou, H. Refai, The Univ. of Oklahoma, Tulsa (United States)

SESSION 5 COMPONENTS AND TECHNIQUES

- 8038 0J **Turbulence modeling for non-line-of-sight ultraviolet scattering channels (Invited Paper)** [8038-19]
H. Ding, G. Chen, Univ. of California, Riverside (United States); A. K. Majumdar, Naval Air Warfare Ctr. Weapons Div. (United States); B. M. Sadler, U.S. Army Research Lab. (United States); Z. Xu, Univ. of California, Riverside (United States)
- 8038 0K **Laser communication of FM audio/video signals using InGaAs modulating retro-reflectors** [8038-20]
K. J. Grant, B. A. Clare, W. Martinsen, K. A. Mudge, Defence Science and Technology Organisation (Australia); H. R. Burris, C. I. Moore, J. Overfield, G. C. Gilbreath, W. S. Rabinovich, J. Duperre, U.S. Naval Research Lab. (United States)
- 8038 0L **Orbital angular momentum receiver bandwidth for laser communications systems operating in atmospheric turbulence** [8038-21]
F. E. Strömqvist Vetelino, R. J. Morgan, Aerospace Missions Corp. (United States)
- 8038 0O **A flexible testbed for adaptive optics in strong turbulence** [8038-24]
J. D. Schmidt, M. J. Steinbock, Air Force Institute of Technology (United States); E. C. Berg, Science Applications International Corp. (United States)

Author Index

Conference Committee

Symposium Chair

William Jeffrey, HRL Laboratories, LLC (United States)

Symposium Cochair

Kevin P. Meiners, Office of the Secretary of Defense (United States)

Conference Chairs

Linda M. Wasiczko Thomas, U.S. Naval Research Laboratory
(United States)

Earl J. Spillar, Air Force Research Laboratory (United States)

Program Committee

Ammar Al-habash, Raytheon (United States)

Larry C. Andrews, University of Central Florida (United States)

Gary J. Baker, Lockheed Martin Space Systems Company
(United States)

Harris R. Burris, Jr., U.S. Naval Research Laboratory (United States)

James M. Cicchiello, Northrop Grumman Electronic Systems
(United States)

G. Charmaine Gilbreath, U.S. Naval Research Laboratory
(United States)

Gary G. Gimmestad, Georgia Tech Research Institute (United States)

Kenneth J. Grant, Defence Science and Technology Organisation
(Australia)

Christopher I. Moore, U.S. Naval Research Laboratory (United States)

Jonathan M. Saint Clair, The Boeing Company (United States)

David H. Tofsted, U.S. Army Research Laboratory (United States)

Morio Toyoshima, National Institute of Information and
Communications Technology (Japan)

Cynthia Y. Young, University of Central Florida (United States)

Session Chairs

- 1 Performance, Modeling, and Simulation
Larry C. Andrews, University of Central Florida (United States)
Ammar Al-habash, Raytheon (United States)
- 2 Atmospheric Measurements
Ammar Al-habash, Raytheon (United States)

- 3 Laser Communication I
Linda M. Wasiczko Thomas, U.S. Naval Research Laboratory
(United States)
- 4 Laser Communication II
Gary J. Baker, Lockheed Martin Space Systems Company
(United States)
- 5 Components and Techniques
Harris R. Burris, Jr., U.S. Naval Research Laboratory (United States)
