SPIE

Volume 12543

Proceedings of SPIE 0277-786X, V. 12543

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Ocean Sensing and Monitoring XV, edited by Weilin Hou, Linda J. Mullen,
Proc. of SPIE Vol. 12543, 1254301 · © 2023 SPIE
0277-786X · doi: 10.1117/12.2690281

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *Ocean Sensing and Monitoring XV*, edited by Weilin Hou, Linda J. Mullen, Proc. of SPIE 12543, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B … 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

vii *Conference Committee*

ORBITAL ANGULAR MOMENTUM

12543 02 **Radio frequency intensity modulation verses heterodyne modulation on laser beams traversing a random optical phase distortion** [12543-1]

12543 03 **Optimizing beam attenuation measurements using spatial incoherence (Best Paper Award)** [12543-2]

12543 04 **Underwater propagation of spatially partially coherent beams carrying orbital angular momentum** [12543-3]

12543 05 **Scattering of light with orbital angular momentum from single particles** [12543-4]

UNDERWATER OBJECT DETECTION

12543 06 **The non-acoustic signatures of underwater vehicles** [12543-5]

12543 07 **Range-Doppler processing of the underwater radar-encoded laser system** [12543-6]

12543 08 **On the role of uncertainty in Poisson target models used for placement of spatial sensors** [12543-7]

12543 09 **Quantifying the performance of the bistatic, frame-based laser imager (FLI)** [12543-8]

12543 0A **Insights into flow-stimulated bioluminescence flash kinetics of larvae of the ctenophore Mnemiopsis leidyi** [12543-9]

TURBULENCE AND WATER OPTICAL PROPERTIES

12543 0B **Development of an experimental setup for measuring ocean property changes resulting from turbulence** [12543-10]

12543 0D **Decomposition of the total non-water absorption coefficient for retrieval of absorption subcomponents** [12543-12]

12543 0E **Calibration and preliminary performance of an in-water, integrated total scattering and backscattering sensor** [12543-13]

12543 0F **Preliminary results of new calibration approach and uncertainty assessment for PSICAM** [12543-14]

ACTIVE AND PASSIVE REMOTE SENSING OF THE ATMOSPHERE AND OCEAN I

12543 0G **Radiometric calibration of consumer cameras for measuring coastal light pollution** [12543-16]

12543 0H **Texture-based optical flow for wind velocity estimation from water vapor data** [12543-17]

12543 0I **Oil spill detection and monitoring in the Cyprus region** [12543-18]

ACTIVE AND PASSIVE REMOTE SENSING OF THE ATMOSPHERE AND OCEAN II

12543 0J **Characterization of IR sea clutter** [12543-20]

12543 0K **Enabling persistent monitoring of littoral areas with smart unmanned assets** [12543-21]

12543 0L **Observations of ocean water properties with blue wavelength airborne lidar** [12543-22]

12543 0M **Polarimetric imaging of the ocean surface for the study of ocean surface roughness and wave slopes statistics**
(Best Paper Award Honorable Mention) [12543-23]

MACHINE LEARNING/DEEP LEARNING I

12543 0N **MI-AFR: multiple instance active learning based approach for fish species recognition in underwater environments** [12543-24]

12543 0O **An enhanced YOLOv5 model for fish species recognition from underwater environments** [12543-25]

12543 0P **Semi-supervised learning for fish species recognition** [12543-26]

12543 0Q **Characterization of underwater optical turbulence caused by natural convection generated by Rayleigh-Bénard using machine learning** [12543-28]

MACHINE LEARNING/DEEP LEARNING II

12543 0R **Monitoring of marine debris on shorelines using machine-learning models with high-resolution satellite** [12543-29]

12543 0S **Marine debris detection using visual geometry group 19 and residual network 50** [12543-30]

12543 0T **Edge detection metrics for improved object recognition with underwater laser images** [12543-32]

12543 0U **Ocean litter detection using inception transfer learning models** [12543-31]

POSTER SESSION

12543 0V **Seagrass mapping in Cyprus area of interest with pixel-based classification** [12543-19]

12543 0W **Detecting vessels in exclusive economic zone (EEZ) of the Republic of Cyprus using Sentinel-1** [12543-27]

Conference Committee

Symposium Chairs

Tien Pham, The MITRE Corporation (United States)
Douglas R. Droege, L3Harris Technologies, Inc. (United States)

Symposium Co-chairs

Augustus W. Fountain III, The University of South Carolina (United States)
Teresa Pace, L3Harris Technologies, Inc. (United States)

Program Track Chair

Latasha Solomon, DEVCOM Army Research Laboratory (United States)

Conference Chairs

Weilin Hou, ONR Global (Singapore)
Linda J. Mullen, Naval Air Warfare Center Aircraft Division (United States)

Conference Co-chair

Alexander Ignatov, NOAA Center for Satellite Applications and Research (United States)

Conference Program Committee

Fraser R. Dalgleish, L3Harris Technologies, Inc. (United States)
Dennis V. Delic, Defence Science and Technology Group (Australia)
David W. Illig, Naval Air Warfare Center Aircraft Division (United States)
Brittany Lynn, Naval Information Warfare Center Pacific (United States)
Silvia C. Matt, U.S. Naval Research Laboratory (United States)
