SPIE

Volume 12981
Part One of Two Parts

Proceedings of SPIE 0277-786X, V. 12981

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Ninth International Symposium on Sensors, Mechatronics, and Automation System (ISSMAS 2023),
edited by Lijia Pan, Zaifa Zhou, Proc. of SPIE Vol. 12981, 1298101
© 2024 SPIE · 0277-786X · doi: 10.1117/12.3028479

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *Ninth International Symposium on Sensors, Mechatronics, and Automation System (ISSMAS 2023)*, edited by Lijia Pan, Zaifa Zhou, Proc. of SPIE 12981, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B … 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

xvii *Conference Committee*

Part One

ELECTROMECHANICAL SYSTEM MANAGEMENT AND SENSING DATA ANALYSIS

12981 02 **Influence of boiler continuous blowdown utilization on thermal economy of the whole plant** [12981-167]

12981 03 **Research on energy storage configuration method based on frequency characteristics of new energy station** [12981-113]

12981 04 **Performance improvement of balanced suspension with inerter-based vibration absorbers** [12981-159]

12981 05 **Multi-objective and multi-stage trajectory tracking controller for high-speed train based on weight optimization** [12981-266]

12981 06 **Defects of traditional disengager and a new type study on thermal demagnetization disengager** [12981-210]

12981 07 **Design of a reusable VCSEL sensor chip integrated with multilayer grating** [12981-238]

12981 08 **Power quality and energy consumption prediction model of transmission line based on grey multiple linear regression** [12981-171]

12981 09 **Research and analysis of single-degree-of-freedom magnetic liquid acceleration sensors** [12981-26]

12981 0A **Vehicle-bearing rotary spray washing machine control system design** [12981-252]

12981 0B **The balance system for the vertical machining center of the intelligent production line** [12981-152]

12981 0C **Design of foam flexible pressure sensor based on PDMS/MWCNTs/HPC/PDA for human motion detection** [12981-56]

12981 0D **N-system counter design based on 74LS16X** [12981-52]

12981 0E **Hall sensor-based pressure thermometer temperature measurement error detection** [12981-110]

12981 0F **Lightweight design of carrier plate for single-car stereo garage lifting mechanism** [12981-7]

12981 0G **Adaptive flying start strategy for sensorless permanent magnet synchronous motor** [12981-11]

12981 0H **Distributed localization algorithm for wireless sensor networks under minuscule bias injection attacks** [12981-155]

12981 0I **Clutch dual-disc brake design and braking efficiency test of heavy-duty vehicle** [12981-129]

12981 0J **Parameter identification of transmission lines by recursive least squares based on dynamic factor improvement** [12981-121]

12981 0K **Design and research of high strength suspension clamp for transmission lines with large span** [12981-287]

12981 0L **Design and simulation of servo control system for umbilical cable coiling winch** [12981-96]

12981 0M **Control strategy of optical storage combined power generation system for black start** [12981-53]

12981 0N **Development and application of seven-electrode temperature and salinity sensor** [12981-66]

12981 0O **Research on servo control system based on RBF-PID algorithm** [12981-157]

12981 0P **Research on optimal schedule strategy of distributed generation considering distribution network margin** [12981-57]

12981 0Q **Sensor-based multisource fusion in an unstructured environment mapping and localization** [12981-106]

12981 0R **Multi-sensor fusion 3D object detection based on channel attention** [12981-34]

12981 0S **Comparison and analysis on technical route of dust removal system retrofit in coal-fired power plant after ultra-low emission retrofit** [12981-137]

12981 0T **Calculation and analysis of the number of sensor nodes deployed with regular polygon to cover a rectangle area** [12981-208]

12981 0U **Single-sensor-based and multi-sensor fusion SLAM: a survey** [12981-80]

12981 0V **An intelligent illumination system with personalized quality of services in smart home** [12981-84]

12981 0W **Leakage detection of tailing pipeline based on multisensor and multientropy fusion** [12981-111]

12981 0X **Improved LED junction temperature measurement system based on LabVIEW** [12981-247]

12981 0Y **High efficiency single-stage electrolytic-capacitor-less flicker-free boost LED driver** [12981-245]

12981 0Z **An automatic control method for semi-active suspension of driverless vehicle based on multi-sensor information fusion in complex environment** [12981-217]

12981 10 **The simulation of a high sensitivity GMR (giant magnetoresistance) biosensor for magnetic nanoparticle detection** [12981-212]

12981 11 **Infrared sensor-based tour guide service robot design** [12981-250]

12981 12 **Research on fusion algorithm based on multimode sensor** [12981-139]

12981 13 **Principle and characteristic analysis of electric field sensor** [12981-256]

12981 14 **Cooperative localization of wireless sensor networks in non-ideal conditions** [12981-30]

12981 15 **Flexible sensor for hand rehabilitation monitoring in hemiplegic patients** [12981-35]

12981 16 **Design of brushless DC motor simulation action system based on Fuzzy PID** [12981-227]

12981 17 **Research on microstrain loading device and strain detection method based on SWCNT strain sensor** [12981-156]

12981 18 **Safety monitoring system design based on acousto-optical-image measurement sensors in underground pipe gallery** [12981-125]

12981 19 **Design and calculation of ventilation system for civil aircraft landing gear compartment** [12981-86]

12981 1A **Design and research of high strength nano-modified aluminum alloy ball-eye in heavy icing area** [12981-239]

12981 1B **Substation safety management system based on power Beidou** [12981-49]

12981 1C **Design of a multiterrain rescue robot system based on STM32** [12981-201]

12981 1D **Design of flexible MEMS sensor array and data acquisition system** [12981-5]

12981 1E **Design of ship power system with exchangeable battery energy storage containers** [12981-133]

MACHINE VISION PROCESSING AND SIGNAL DETECTION

12981 1F **Blind source separation and algorithm improvement based on ICA algorithm** [12981-228]

12981 1G **Spasm detection method based on motor current in rehabilitation training equipment** [12981-275]

12981 1H **Abnormal power consumption detection based on EEMD-RMS** [12981-79]

12981 1I **Transmission of meteorological information by satellite communication between master and sub-stations based on probability model: taking Problem D of 2022 National Undergraduate Mathematical Modeling Contest as an example** [12981-282]

12981 1J **The design and application of an infrared cloud remote controller** [12981-285]

12981 1K **Research on adaptive robust control of pitching motion of a naval gun** [12981-73]

12981 1L **Wide-frequency harmonic measurement method based on window interpolation FFT and Taylor least squares** [12981-143]

12981 1M **Research and analysis on jamming effectiveness of towed decoy** [12981-262]

12981 1N **Lightning trip prediction of overhead transmission lines based on CNN-GRU network** [12981-284]

12981 1O **Research on the interception capability of distributed UUV swarm** [12981-293]

12981 1P **Anomaly detection: research on model selection based on multiple models** [12981-255]

12981 1Q **Research on the application of artificial intelligence algorithm in radar signal processing of unmanned boat** [12981-88]

12981 1R **A multi-strategy fusion neural network method for named entity recognition in PST** [12981-6]

12981 1S **Research and application of micro size measurement technology** [12981-273]

12981 1T **Multimodal interaction strategies for take-over requests in L3 automated driving** [12981-158]

12981 1U **Design of intelligent robot based on Raspberry PI vision recognition** [12981-76]

12981 1V **Multistation positioning research based on cold punching dies** [12981-3]

12981 1W **Research on structural optimization and lightweight design of a certain type of radar antenna tower** [12981-271]

12981 1X **Research on secondary signal acquisition system for instrument transformers based on time synchronization technology** [12981-23]

12981 1Y **Design and implementation of garbage classification and detection system based on YOLOv8** [12981-258]

12981 1Z **Environmental sound classification using vision transformer** [12981-124]

12981 20 **Tilt detection method for transmission line tower construction based on quadratic point cloud matching** [12981-91]

12981 21 **Knowledge-based hierarchical modeling evaluation method for skeleton models** [12981-48]

12981 22 **A review of small target detection based on deep learning** [12981-213]

12981 23 **A marine current turbine imbalance fault detection method based on Park's vector transformation and signal reconstruction** [12981-46]

12981 24 **Substation equipment defect identification method based on drone inspection** [12981-115]

12981 25 **Study on calibration method of three-gas incubator** [12981-221]

12981 26 **Collaborative acceleration of CPU/GPU for electric power digital twin applications** [12981-253]

12981 27 **Pollution level detection of silicone rubber insulators based on deep extreme learning machine** [12981-240]

12981 28 **Point cloud segmentation method for irregular parts based on Euclidean clustering** [12981-40]

12981 29 **Design of visual assisted robot loading and unloading system** [12981-102]

12981 2A **Time-frequency characteristics of multiple signal sensing technologies in switchgear** [12981-234]

12981 2B **Lightweight fall detection system based on Orangepi 5B** [12981-268]

12981 2C **Research on LED junction temperature measurement method based on infrared thermal imaging** [12981-276]

12981 2D **Design of a temperature and humidity calibration device for cold chain warehousing and transportation** [12981-214]

12981 2E **Research on demodulation of balise uplink signal based on constant modulus algorithm** [12981-188]

12981 2F **Miniature resistance temperature detector signal processing circuit with dual redundant design** [12981-237]

12981 2G **Wafer-level identification of the beam width of MEMS gyroscopes** [12981-173]

12981 2H **Acoustic optimization design study of a typical valve-controlled hydraulic system** [12981-251]

12981 2I **Application of EMD in downhole near drill bit weak SNR signal extraction** [12981-176]

12981 2J **Multichannel static calibration method for NiCr/NiSi thin film thermocouples** [12981-174]

12981 2K **Design and implementation of unexploded bomb detection and localization system** [12981-226]

12981 2L **Research on leakage location of tailings transportation pipeline based on infrasound signal** [12981-233]

12981 2M **Rapid sensing technology of highway pavement diseases based on a wireless dynamic tire pressure monitoring system** [12981-97]

12981 2N **A direction-aimed radiation detector and strength estimation method based on mobile robot system** [12981-220]

12981 2O **Research and design of temperature compensation method for thermocouple** [12981-270]

MECHANICAL POWER DRIVE AND FAULT MONITORING

12981 2P **Research on application of an on-line partial discharge monitoring system installed in high voltage switchgear** [12981-98]

12981 2Q **Research on application of suspension K&C test bench in solving tire wear problem** [12981-292]

12981 2R **Analysis of anti-jamming measures of engine fuel consumption measurement and control system** [12981-9]

12981 2S **Design of monitoring and control system for wind-induced vibration of heliostat based on LabVIEW** [12981-279]

12981 2T **Analysis of a breakdown failure of 550 kV GIS circuit breaker** [12981-95]

12981 2U **Study on the influence of channel length on flow and heat transfer characteristics of wire-plate ionic wind** [12981-109]

12981 2V **Reconfigurable dynamic analysis method for multilevel mechanical transmission system** [12981-118]

12981 2W **Fault diagnosis for rolling bearing based on EEMD and complexity dimension** [12981-289]

12981 2X **Reliability evaluation of meta-action unit based on fault tree Bayesian network** [12981-12]

12981 2Y **Meta-action unit fault identification based on multisource information fusion and D-S evidence theory** [12981-169]

12981 2Z **Prediction of welding properties of solder joints based on machine learning** [12981-116]

12981 30 **Extrapolation of road fuel consumption data for hybrid heavy trucks based on the Monte Carlo method** [12981-166]

12981 31 **Analysis of the influence of air resistance on fuel consumption calculation under various driving conditions** [12981-24]

12981 32 **Self-adaption cycle time limit of P0315 flywheel for engine fault** [12981-78]

12981 33 **Design of stroke reduction mechanism based on differential principle** [12981-38]

12981 34 **Review: the development of tactile feedback devices** [12981-50]

12981 35 **Research on parametric modeling and spatial layout method of parallel shaft marine transmission system** [12981-32]

12981 36 **Structure design and static analysis of a cylindrical wave buoy** [12981-83]

12981 37 **On-line insulation monitoring method for converter transformer valve side bushings based on time series correlation of leakage current** [12981-104]

12981 38 **Remote multiplatform robot arm digital twin system based on OPC UA and Unity engine** [12981-140]

12981 39 **Research on the running resistance of locomotives in the special environment of the western plateau** [12981-63]

12981 3A **Research on fatigue testing machine of rail transit vibration isolator** [12981-93]

12981 3B **Modal analysis of a robotic fish with rotary-to-swing mechanism and flexible tensegrity joints** [12981-13]

12981 3C **A modification of the tobacco feeder nozzle spatial position and angle adjustment device** [12981-43]

12981 3D **Operation monitoring and decision-making assistance for flexible DC converter valve based on improved LightGBM** [12981-14]

12981 3E **Design of a self-diagnosis system for intelligent tobacco feeder** [12981-65]

12981 3F **The vortex field simulation of a robotic fish driven by rotary-to-oscillatory mechanism** [12981-263]

12981 3G **A missing sequence interpolation algorithm for power grid dispatching data under multisource data fusion** [12981-114]

Part Two

12981 3H **Evaluation and simulation analysis of airport ground air conditioning operation effect** [12981-168]

12981 3I **Motor diagnosis based on vibration imaging and CNN** [12981-172]

12981 3J **Theoretical study on the influence of structural parameter errors on the end trajectory accuracy of cam manipulators** [12981-206]

12981 3K **Research on health status evaluation method for DC motor drive circuits under multiple failure mechanisms** [12981-74]

12981 3L **Fault diagnosis of multi-compensation capacitors based on amplitude characteristics** [12981-264]

12981 3M **Analysis of aerodynamic characteristics of a certain aircraft wing structure at different angles of attack** [12981-211]

12981 3N **Fault identification of rotating machinery based on multiscale convolution and deep residual networks** [12981-85]

12981 3O **Leakage current data cleaning method based on multidimensional harmonic feature fusion** [12981-191]

12981 3P **Design and performance analysis of herringbone groove journal bearings for high-speed gear pump** [12981-36]

12981 3Q **Research on calibration method of large-scale surveying and mapping instrument** [12981-186]

12981 3R **Research on fault diagnosis of motor interturn short circuit based on deep learning** [12981-153]

12981 3S **Study on performance degradation of static random access memory cells** [12981-8]

12981 3T **Transformer fault diagnosis based on improved dung beetle algorithm optimizing SVM** [12981-180]

12981 3U **Fault diagnosis of industrial robots based on Adams dynamics simulation** [12981-269]

12981 3V **Research of error influence mechanism of CVT by electric field** [12981-215]

12981 3W **Remote water quality monitoring: an IoT and USV-based study** [12981-72]

12981 3X **Design and simulation analysis of anti-blocking-type screw feeder** [12981-267]

12981 3Y **Fault prediction model for rolling bearings based on double adaptive sliding time windows** [12981-33]

12981 3Z **Mass classification method of laminated elastomer based on k-medoids algorithm** [12981-4]

12981 40 **Computational analysis of the longevity of drive gear bearings in the primary reduction unit** [12981-82]

MECHATRONICS AND ELECTROMAGNETIC COMPATIBILITY RESEARCH

12981 41 **The practice of mechatronics technology in intelligent manufacturing** [12981-131]

12981 42 **Modeling and simulation of permanent magnet brushless motor control system** [12981-283]

12981 43 **The design of an offshore wind turbine one-step installation vessel** [12981-60]

12981 44 **Numerical simulation of electrode shape on electric field generated by electropolymerization electrode** [12981-135]

12981 45 **A demand calculation scheme of electricity meters to solve frequent load fluctuations** [12981-162]

12981 46 **Forward tracking guidance law of non-singular fast dynamic surface sliding mode with dynamic characteristics** [12981-20]

12981 47 **Research on the rapid evaluation method for the corrosion defects in seawater cooling pipes of nuclear power plants** [12981-2]

12981 48 **Key technologies of high-speed control of induction motors for electric vehicles** [12981-67]

12981 49 **Design and implementation of measuring instrument for generator side power information in permanent magnet direct drive wind turbine** [12981-18]

12981 4A **Reliability assessment of distribution network systems with flexible interconnection device** [12981-22]

12981 4B **Structure design based on electromagnetic compatibility** [12981-44]

12981 4C **Performance evaluation of straight-line magnetizing current trajectory for variable flux memory machine** [12981-165]

12981 4D **On vector control of open winding permanent magnet synchronous motor** [12981-37]

12981 4E **Icepak-based heat sink optimization design for automotive domain controllers** [12981-291]

12981 4F **Design and research of electromagnetic repulsion mechanism with double repulsion disks structure** [12981-39]

12981 4G **Economic optimal load dispatch of air source heat pump participating in peak load regulation of power grid** [12981-19]

12981 4H **Research on inversion reconstruction and prediction method of high-altitude meteorological field** [12981-105]

12981 4I **Health status indicator system and evaluation method for expressway electromechanical equipment** [12981-16]

12981 4J **A method of compensating the DC magnetic bias for current transformers** [12981-21]

12981 4K **Review of equivalent modeling methods for doubly-fed wind farm** [12981-130]

12981 4L **Research on orderly charging scheduling of new energy vehicles in airfield** [12981-182]

12981 4M **Research on three-dimensional lightweight modeling method of substation based on mathematical angle-string height joint method** [12981-254]

12981 4N **Research on task path planning method for substation inspection robot and UAV based on genetic algorithm** [12981-288]

12981 4O **Radio altimeter compatibility analysis with 5G systems** [12981-177]

12981 4P **Research on cutting data optimization based on response surface method** [12981-223]

12981 4Q **Design optimization of three-phase asynchronous motor stator slot based on genetic algorithm** [12981-51]

12981 4R **Digital calibration technology and device design for SF6 hexafluoride** [12981-248]

12981 4S **A method of reducing cogging torque for IPMSM based on stator auxiliary slot** [12981-69]

12981 4T **Model predictive control for quasi-Z-source inverter-permanent magnet synchronous motor system without weighting factor** [12981-183]

12981 4U **Drum water level control of heat recovery boiler via modified active disturbance rejection control** [12981-120]

12981 4V **Coupled electromagnetic-dynamic modelling of induction motor with a broken rotor bar** [12981-132]

12981 4W **Research on dryer control system based on speed-regulated DC brushless motor** [12981-199]

12981 4X **Distributed coordination voltage control of multiple grids in active distribution network** [12981-216]

12981 4Y **A multiobjective flexible job shop scheduling method based on deep reinforcement learning** [12981-179]

12981 4Z **Research status and prospect of high-voltage electric weeding technology and equipment** [12981-81]

12981 50 **Research on improved RRT* path planning based on hospital complex environment** [12981-184]

12981 51 **A control method for virtual synchronous generators in microgrids under voltage unbalance** [12981-193]

12981 52 **Test verification and optimization design simulation of a vehicle thermal management system** [12981-146]

12981 53 **Parking path planning of autonomous vehicle based on B-spline curve** [12981-170]

12981 54 **Magnetic bearing displacement stiffness force feed-forward compensation method considering harmonic disturbance** [12981-178]

12981 55 **Phase-field-based study on the tensile fracture of ferromagnetic microwires** [12981-189]

12981 56 **Design of electromagnetic adsorption drainage cover for underwater welding** [12981-219]

12981 57 **Kinematic analysis and simulation study of 5R robotic arm** [12981-222]

12981 58 **Optimization design of forklift's safe front fork based on finite element** [12981-232]

12981 59 **Research on non-contact attitude measurement of spherical joints based on magnetic sensing** [12981-196]

INTELLIGENT MANUFACTURING AND AUTOMATION CONTROL

12981 5A **Design of multiparameter remote wireless monitoring system based on LoRa** [12981-17]

12981 5B **Cruise control approach for virtually coupled trains based on improved self-triggered model predictive control** [12981-281]

12981 5C **Design and construction of smart prison management system based on cloud computing technology** [12981-61]

12981 5D **Validation method of error estimation of the metering device based on Monte Carlo simulation** [12981-272]

12981 5E **Application of extended Kalman filter algorithm in optimizing SOC estimation** [12981-243]

12981 5F **Trajectory planning algorithm based on pyramidal inclined winding** [12981-142]

12981 5G **Multi-factor influence on UAV crash safety assessment** [12981-47]

12981 5H **Study and design of an unmanned intelligent cleaning robot for photovoltaic panel** [12981-58]

12981 5I **Design of a quality risk early warning system for discrete manufacturing based on stepped neural network** [12981-259]

12981 5J **A simulation design of process control system based on MATLAB** [12981-150]

12981 5K **Ankle rehabilitation research on position control using pneumatic artificial muscles** [12981-10]

12981 5L **Architecture design of generic automatic test system runtime platform based on ATML** [12981-45]

12981 5M **Study on ultrasonic transit-time measurement method based on temperature adaptive** [12981-147]

12981 5N **Temperature prediction of wind turbine bearing based on multichannel parallel deep residual neural network** [12981-112]

12981 5O **Design and analysis of pressure reducing valve based on finite element method** [12981-100]

12981 5P **Intelligent wheelchair obstacle avoidance design based on microcontroller** [12981-42]

12981 5Q **Design of intelligent irrigation control system for vegetable greenhouses based on STM32F103C8T6** [12981-77]

12981 5R **Research on application of automatic control system in chemical safety production** [12981-101]

12981 5S **Application of vertical federated learning based on SecureBoost in electric power scene** [12981-29]

12981 5T **Realization of regex expression matching algorithm based on list storage** [12981-200]

12981 5U **Improved adaptive dynamic surface control for uncertain nonlinear systems with input saturation** [12981-231]

12981 5V **Research on operation strategy of wind-solar-storage direct current microgrid based on droop control** [12981-41]

12981 5W **Privacy-preserving short-term load forecasting with convolutional neural networks using secure computation** [12981-15]

12981 5X **Study of fuzzy PI controller in improving transient response performance of DC-DC converters** [12981-127]

12981 5Y **Application of group intelligence combined with a cascaded neural network in swarming electronic countermeasures** [12981-119]

12981 5Z **Design of an intelligent medication delivery robot based on CNN and OpenCV** [12981-92]

12981 60 **Construction of index system based on overall architecture of intelligent factory for electrical equipment manufacturing** [12981-27]

12981 61 **Research on multi-motor speed synchronous control based on mean coupling control** [12981-55]

12981 62 **Grid-connected 3-level active neutral-point-clamped converter converter sliding mode control based on disturbance observation** [12981-260]

12981 63 **Simulation research on vague PID control of conveyor belt based on MATLAB** [12981-70]

12981 64 **Robust long-term target tracking algorithm based on objectness-guided tracking** [12981-154]

12981 65 **Load frequency control of interconnected power systems based on improved whale optimization algorithm** [12981-194]

12981 66 **A novel cascade anti-interference algorithm** [12981-236]

12981 67 **Quadcopter following controller design and MATLAB/Simulink implementation** [12981-149]

12981 68 **A novel example of fuzzing testing based on deep neural network** [12981-195]

12981 69 **A novel Event-triggered dynamic scheduling strategy for automated guided vehicle in warehouse system** [12981-89]

12981 6A **A wavelet neural network model optimized by gray wolf algorithm for springback prediction of metal tube bending** [12981-25]

12981 6B **Research and application of intelligent car based on BP neural network PID control** [12981-207]

12981 6C **A survey on perception, localization, planning, and control of autonomous vehicles: challenges and solutions** [12981-59]

12981 6D **Design of door control system for urban railway simulation device** [12981-181]

12981 6E **Design of air-conditioning system for urban railway simulation training device** [12981-185]

12981 6F **Training and control performance evaluation of NARMA-L2 neural controller by simulation model of a test bench** [12981-218]

12981 6G **A comprehensive machine-learning-based analog pressure gauge reading approach** [12981-187]

12981 6H **Construction of water content prediction model for tobacco roaster based on back propagation neural network** [12981-175]

12981 6I **Study and design of the expandable shelter controller based on the STM32** [12981-205]

12981 6J **Structural design and modeling of four-way shuttle car for automated warehouse systems** [12981-286]

12981 6K **Design of non-contact gesture recognition control system based on embedded system** [12981-163]

12981 6L **Design and optimization of low wind-pressure overhead conductors** [12981-198]

12981 6M **Design and Implementation of two-wheeled self-balancing intelligent scooter** [12981-164]

12981 6N **Optimization of endwall profile for tail nozzle based on genetic algorithm** [12981-161]

12981 6O **Model predictive control application for simplified adaptive cruise control** [12981-64]

Conference Committee

Conference General Chairs

Wenfeng Wang, International Academy of Visual Art and Engineering (United Kingdom)
Lijia Pan, Nanjing University (China)
Hamid Reza Karimi, Politecnico di Milano, Milan (Italy)

Publication Chair

Sohrab Mirsaeidig, Beijing Jiaotong University (China)

Technical Committee Chair

Zaifa Zhou, Southeast University (China)

Local Committee

Jie Zhang, Nanjing University (China)
Abhishek Kumar Awasthi, Nanjing University (China)
Xinjie Lv, Nanjing University (China)
Shahid Hussain, Jiangsu University (China)
Li Xiao, Chinese Academy of Sciences (China)
Ji Wang, Ningbo University (China)
Haiwu Li, Guangxi Minzu University (China)
Weidong Zhang, Shanghai Jiao Tong University (China)
Enwei Chen, Hefei University of Technology (China)
Khalid Hamid, National Chiao Tung University (China)
Yanbo Che, Tianjin University (China)
Daohui Wang, Sichuan Automatization Instruments Institute (China)
Ching-Nung Yang, National Dong Hwa University, Taiwan (China)
Jingbo Xia, Xiamen University Tan Kah Kee College (China)
Yajun Liu, South China University of Technology (China)
Yong Hao, East China Jiaotong University (China)
Ailing Xiao, North China University of Technology (China)
Kai-Sheng Chen, Sun Yat-Sen University (China)
Mrutyunjay Maharana, Xi'an Jiatong University (China)

International Technical Committee

Murat Tolga Ozkan, Gazi University (Turkey)
Jiang Zhu, Tokyo Institute of Technology (Japan)
Bajracharya Binod, Tongji University (China)
Mohsen Jahanshahi, Islamic Azad University (Iran)
Muhammad Zubair, Information Technology University (Pakistan)
Talha Nazir, Ghazi University (Pakistan)

Mahmoud Elsisi, National Kaohsiung University of Science and Technology, Taiwan (China)
Morteza Mohammadzaheri, Sultan Qaboos University (Oman)
Udit Mamodiya, Poornima University (India)
Sandip Kunar, Aditya Engineering College (India)
Ghous Bakhsh, NED University (Pakistan)
Parneeta Dhaliwal, I.K. Gujral Punjab Technical University (India)
Jude Hemanth, Karunya University (India)
Tasher Ali Sheikh, Mie University (Japan)
Badrul Hisham, Universiti Teknikal Malaysia Melaka (Malaysia)
Arockia Selvakumar, AVIT University (India)
Vineet Dahiya, K. R. Mangalam University (India)
