

PROCEEDINGS OF SPIE

Tenth International Conference on Energy Materials and Electrical Engineering (ICEMEE 2024)

**Yuanhao Wang
Cristian Paul Chioncel**
Editors

**16–18 August 2024
Lhasa, China**

Organized by
Tibet University (China)

Sponsored by
AEIC—Academic Exchange Information Centre (China)

Published by
SPIE

Volume 13419

Part One of Two Parts

Proceedings of SPIE 0277-786X, V. 13419

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Tenth International Conference on Energy Materials and Electrical Engineering (ICEMEE 2024),
edited by Yuanhao Wang, Cristian Paul Chioncel, Proc. of SPIE Vol. 13419, 1341901
© 2024 SPIE · 0277-786X · doi: 10.1117/12.3057334

Proc. of SPIE Vol. 13419 1341901-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Tenth International Conference on Energy Materials and Electrical Engineering (ICEMEE 2024)*, edited by Yuanhao Wang, Cristian Paul Chioncel, Proc. of SPIE 13419, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Publication of record for individual papers is online in the SPIE Digital Library.

SPIE. DIGITAL LIBRARY

SPIDigitalLibrary.org

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

xiii *Conference Committee*

Part One

RESEARCH ON GREEN ENERGY AND ENERGY STORAGE TECHNOLOGY

- 13419 02 **Enhancing perovskite solar cell stability and performance with epoxy resin: a promising path to sustainable solar energy** [13419-28]
- 13419 03 **Research on fast and accurate modeling of straight profile torus worm for photovoltaic rotary drive** [13419-176]
- 13419 04 **Optimized scheduling of the park-integrated energy system considering the multiple-demand coupling response characteristics** [13419-19]
- 13419 05 **Preparation of ZnO nanorod arrays and their application in PbS quantum dot solar cells** [13419-191]
- 13419 06 **Research on influencing factors for wax deposition behavior in G-13 oil well and preferred selection of wax-remover** [13419-117]
- 13419 07 **Calculation of waterflood front in fractured low-permeability sandstone reservoirs** [13419-49]
- 13419 08 **Analyses of gas pulsation characteristics in the pipelines of a hydrogen diaphragm compressor** [13419-51]
- 13419 09 **Numerical investigations on the flame propagation characteristics of hydrogen detonation** [13419-46]
- 13419 0A **The characteristics of indoor hydrogen leakage and diffusion along with the spatiotemporal evolution pattern of hydrogen concentration** [13419-124]
- 13419 0B **Dynamic economic scheduling of wind-solar complementary power generation system with electric-hydrogen hybrid energy storage based on deep reinforcement learning** [13419-16]
- 13419 0C **Preparation of Co-B catalysts and their performance in catalyzing NaBH₄ hydrolysis for hydrogen generation** [13419-190]
- 13419 0D **Analysis of the growth mechanism of tin-lead hybrid chalcogenide solar cells with different ratios** [13419-15]
- 13419 0E **Research on the application of novel surfactants in the prevention and control of coal and gas outburst** [13419-21]

- 13419 OF **Research progress on heat transfer performance of phase change microcapsule suspension for storage** [13419-85]
- 13419 OG **Operational optimization of integrated energy systems considering green power trading and energy sharing** [13419-158]
- 13419 OH **Sand lifting-thermal energy storage technology for desert and Gobi regions and its economic analysis** [13419-86]
- 13419 OI **Oxygen sensitivity analysis of tin-lead hybrid perovskites solar cells with different ratios** [13419-6]
- 13419 OJ **Photovoltaic power prediction based on VMD and optimized BiLSTM model** [13419-4]
- 13419 OK **Research on heating technology of solar sand therapy bed** [13419-23]
- 13419 OL **Detection of value-side bushing strap contacts heat generation based on the heat transfer inverse problem** [13419-5]
- 13419 OM **Enhancing photovoltaic efficiency with self-cleaning titanium dioxide nanoparticle coatings: a sustainability approach** [13419-127]
- 13419 ON **Study on realizing carbon emission monitoring based on dynamic carbon factors in parks** [13419-12]
- 13419 OO **Numerical simulation study on the influence mechanism of the ratio of the shell I.D. to the busbar O.D. (R_i) on the steady state temperature rise (T_{rise}) of GIS** [13419-8]
- 13419 OP **A flexible urban energy system dispatch model with uncertain renewable energy** [13419-167]
- 13419 OQ **Failure analysis of external thread insulated live joint for metering in gas transmission station** [13419-172]
- 13419 OR **Optimization of autonomous operation of energy-consuming parks considering economy-energy-efficiency-carbon emission coupling** [13419-89]
- 13419 OS **Optimization control of energy storage in complementary distributed energy systems for predicting new energy output in cold regions** [13419-118]
- 13419 OT **Efficient and scalable solar energy harvesting for thermoelectric generation: a 3D construction of robust and anti-fouling graphene** [13419-7]
- 13419 OU **Hydrothermal preparation and photocatalytic performance of Bi_2O_3** [13419-26]
- 13419 OV **Research on liquid cooling and heat dissipation performance of lithium batteries for energy storage** [13419-186]

- 13419 OW **Optimal dispatch of integrated energy system based on spider wasp optimizer algorithm** [13419-79]
- 13419 OX **Experimental study of dust deposition influences on building integrated photovoltaic array** [13419-119]

INNOVATIVE RESEARCH BASED ON MATERIAL SCIENCE AND TECHNOLOGY

- 13419 OY **The crystal structures and photoluminescence properties in the Y-free and -doped $\text{Sr}_3(\text{VO}_4)_2:\text{Eu}^{3+}$** [13419-114]
- 13419 OZ **Effect of current density on surface morphology, microstructure, and microhardness of Ni- Al_2O_3 composite coatings prepared by jet electrodeposition** [13419-91]
- 13419 10 **Molecular dynamics simulation of decanoic acid-octanoic acid phase change material** [13419-71]
- 13419 11 **Mechanical properties of structure-energy storage integrated composites** [13419-66]
- 13419 12 **Study on adsorption of nano-porous carbon materials** [13419-18]
- 13419 13 **Preparation and anti-icing properties of superhydrophobic bionic nanopore structures aluminum surface by anodic oxidation technique** [13419-194]
- 13419 14 **Binary $\text{Co}_3@\text{CdS}$ composite for photocatalytic oxidation of benzyl alcohol coupling with hydrogen generation** [13419-130]
- 13419 15 **Imine-based covalent organic framework containing benzoquinone active units as a cathode material for lithium-ion batteries** [13419-174]
- 13419 16 **First principle calculations of ammonia adsorption on intrinsic and S-doped graphene** [13419-11]
- 13419 17 **The study of strength distribution of porcelain materials for electrical equipment** [13419-148]
- 13419 18 **Determination of manganese, chromium, nickel, molybdenum, tungsten, and copper in high manganese austenitic low-temperature steel by inductively coupled plasma atomic emission spectrometry** [13419-150]
- 13419 19 **Material selection of heat storage bricks for high-temperature solid heat storage** [13419-99]
- 13419 1A **Binary $\text{Pt}_3\text{Mn}/\text{C}$ as high-performance electrocatalysts for oxygen reduction reaction** [13419-107]
- 13419 1B **Study on the dehumidification performance of silica gel desiccant coated with different binders** [13419-24]

- 13419 1C **Research on the preparation and electrochemical properties of the ternary graphene/carbon nanotubes/Si anode composite** [13419-57]
- 13419 1D **A method for efficient decomposition of EVA in crushed solar panels** [13419-126]
- 13419 1E **A study on the factors affecting bound water film formation in porous media** [13419-38]
- 13419 1F **Terahertz detection of fillers in solid insulating materials** [13419-108]
- 13419 1G **Numerical simulation study on spraying particle deposition of helicopter fuselage for cold spray repair** [13419-173]
- 13419 1H **Research on the effect of graphene carbon nanotube composite conductive additives on the properties of lithium-ion battery cathode materials** [13419-149]
- 13419 1I **Research on influencing factors of surface morphology of $\text{In}_x\text{Ga}_{1-x}\text{As}$ thin film on Si substrate** [13419-17]
- 13419 1J **Application of graphene oxide membranes in hydrogen isotope separation and optimization of their preparation** [13419-33]
- 13419 1K **Recent progress on metal-supported porous carbon materials for hydrogen storage: a review** [13419-104]
- 13419 1L **Surface modification of Zr-MOF to achieve high-efficient adsorption removal of pollutants** [13419-110]
- 13419 1M **Experimental study on the influence of different panels of metal-faced sandwich panel on its sound insulation performance** [13419-120]
- 13419 1N **Zn-doping $\text{Na}_{3+x}\text{V}_{2-x}\text{Zn}_x(\text{PO}_4)_2\text{F}_3/\text{C}$ cathodes for sodium ion batteries** [13419-93]
- 13419 1O **Research progress of key materials for hydrogen production from electrolytic water in fluctuating renewable energy environments** [13419-188]
- 13419 1P **Research progress of cement-based thermoelectric materials** [13419-161]
- 13419 1Q **A feasible approach to superhydrophobic coating: mixing waste stone powder and perfluorooctane solution** [13419-125]
- 13419 1R **Architecting Co-BDC@ graphene oxide composites for next-generation supercapacitor electrodes** [13419-60]
- 13419 1S **Synthesis and characterization of Pt-Ni-Au nano materials** [13419-55]

ADVANCED ANALYSIS AND OPTIMIZATION OF SMART GRID TECHNOLOGY

- 13419 1T **Spatio-temporal analysis of power demand in smart grid based on stacked autoencoder** [13419-128]
- 13419 1U **Consider the ordered charging of low-carbon AGV** [13419-134]
- 13419 1V **Digital management and application of power transmission and transformation project based on 3D design results** [13419-13]
- 13419 1W **A review of electricity theft detection technology** [13419-152]
- 13419 1X **Efficient dynamic analysis of the high-voltage wire protecting system** [13419-74]
- 13419 1Y **Synthesis of low resistivity ITO films by a low-pressure plasma sputtering** [13419-164]
- 13419 1Z **Service life prediction method of cable insulation faults based on multiple kernel learning model** [13419-195]
- 13419 20 **Detection of silicone rubber content for composite insulators based on terahertz technology** [13419-111]
- 13419 21 **Rapid non-destructive detection of insulating oil moisture content based on terahertz technology** [13419-122]
- 13419 22 **Assessment method for multifeed distributed generation hosting capacity considering multiple uncertainties** [13419-196]
- 13419 23 **A distributionally robust chance-constrained approach for distributed generation hosting capacity evaluation considering soft open points** [13419-144]

Part Two

- 13419 24 **Overview of the function of photovoltaic inverters in controlling power quality and supporting the power grid** [13419-166]
- 13419 25 **Identification of outliers in green credit data of power grid suppliers based on MCMC algorithm** [13419-101]
- 13419 26 **Collaborative planning of wind power, photovoltaic, and energy storage for new power system based on Copula scenario generation** [13419-153]
- 13419 27 **An electricity forecasting method based on multi-type electricity decomposition prediction** [13419-181]
- 13419 28 **Research on short circuit current fault diagnosis and protection technology of shore power system** [13419-31]

- 13419 29 **Optimization of 10kV distribution network planning based on modified genetic anneal** [13419-151]
- 13419 2A **Cable impedance spectrum generation method based on amplitude-angle transformation** [13419-177]
- 13419 2B **Study on live detection and fault identification of insulation defects in distribution network cables based on harmonic characteristics** [13419-160]
- 13419 2C **Characterization of PD of suspended water droplets in flowing transformer oils** [13419-163]
- 13419 2D **Experimental study of insulation performance of temperature-humidity coupled field coupling decoupling network** [13419-78]
- 13419 2E **Analysis of voltage variation and unbalance of 10kV line break in a power distribution network** [13419-40]
- 13419 2F **The influence of crescent-shaped icing on the aerodynamic shape factor of OPGW under wind loading** [13419-41]
- 13419 2G **Short-circuit fault characteristics analysis in new-type power systems under different LVRT control strategies and SCR factors** [13419-142]
- 13419 2H **Study on impact of wind on jump height of a heavily iced transmission conductor following ice shedding** [13419-185]
- 13419 2I **Achieving low-temperature fast charging with PC-based electrolytes: regulating solvation structure, diffusion coefficient, and conductivity by concentration** [13419-22]
- 13419 2J **Optimized preparation and capacitive performance evaluation of coal asphaltene: PAN-based nitrogen doped porous carbon membranes** [13419-131]
- 13419 2K **Simulation study of partial discharge detection technology based on iron core induction** [13419-64]
- 13419 2L **Discussion on the sizing method of low voltage power cables for SMR** [13419-84]
- 13419 2M **Research on a non-contact measurement method of single wires based on wavelet denoising** [13419-105]

ELECTRICAL APPLIANCE DESIGN AND POWER SYSTEM MODELING

- 13419 2N **Improvement of rechargeability of solid-state alkaline Zn-MnO₂ battery with Bi₂O₃ doped cathode** [13419-65]
- 13419 2O **Optimized design of welding techniques for grading ring brackets used on UHV lines at high altitudes** [13419-136]

- 13419 2P **SOH probability prediction for lithium-ion batteries based on improved DeepAR** [13419-37]
- 13419 2Q **Design of low-NO_x burner for coal-fired lime rotary kiln** [13419-154]
- 13419 2R **Simulation study of water content and temperature distribution in PEMFC with parallel flow channels** [13419-103]
- 13419 2S **Relative error deviation analysis technology of wide-area group transformer** [13419-53]
- 13419 2T **Preparation and electrical properties of tetrahedrite by hot pressing sintering** [13419-81]
- 13419 2U **Small sample bearing fault diagnosis based on S-transform combined with CNN-SVM** [13419-52]
- 13419 2V **Simulation study of a water-cooled proton exchange membrane fuel cell with jacket type cooling channel** [13419-42]
- 13419 2W **Assessment of non-uniform corrosion and film formation characteristics of pipeline weldment using a multiring electrical resistance sensor array** [13419-129]
- 13419 2X **Quantitative analysis of transformer DC bias risk influencing factors** [13419-182]
- 13419 2Y **Research on installation strategy of transformer DC bias blocking device based on artificial ant colony intelligent algorithm** [13419-137]
- 13419 2Z **Response mechanism and experimental research of in-situ methane sensors based on semi-permeable membrane technology** [13419-116]
- 13419 30 **Wide-area measurement-based metering error state assessment method for potential transformers** [13419-109]
- 13419 31 **Fault prediction method of hydro turbine generator set based on CFA-Conv-LSTM** [13419-70]
- 13419 32 **Investigating the impact of geometric dimensions on the sensitivity of porous flexible capacitive pressure sensors** [13419-54]
- 13419 33 **A multidirectional triboelectric haptic sensor that integrates rigid and flexible components, designed with a bionic finger structure** [13419-76]
- 13419 34 **Simulation study on the influence factors of dynamic capacitance of SF₆ circuit breaker during breaking** [13419-121]
- 13419 35 **Research and application of hydraulic lifting device of coal mine rescue drilling rig** [13419-56]
- 13419 36 **Research on on-line monitoring method of efficiency of three-phase asynchronous motor** [13419-100]

- 13419 37 **Internal and external characterization of multiparallel voltage source energy storage converters** [13419-32]
- 13419 38 **Investigation on flow field characteristics of bag filter based on CFD simulation: effects of processing air volume and dust accumulation degree** [13419-192]
- 13419 39 **Research on thermal electrolytic coupling technology of thermal power unit based on electric boiler heat storage tank coordination** [13419-133]
- 13419 3A **Early health diagnosis method of amplifying abnormal motor vibration characteristic signals using base screw loosening** [13419-39]
- 13419 3B **Remaining useful life prediction of PEMFC based on informer model** [13419-25]
- 13419 3C **Seismic performance evaluation of UHV valve** [13419-156]
- 13419 3D **Structural strength analysis of new semi-submersible offshore wind power platform** [13419-20]
- 13419 3E **Preparation and structural characterization of VO₂(B) and VO₂(M) and investigation of their phase transition properties** [13419-165]
- 13419 3F **Discharge characteristics of metallic particles on the surface of insulating cylinders in high-voltage tank circuit breaker mechanisms under impulse voltage** [13419-183]
- 13419 3G **Optimization of hydrogen combustion engines: a simulation study** [13419-34]

APPLICATION OF INTELLIGENT MONITORING AND OPTIMIZATION TECHNOLOGY

- 13419 3H **A detection method of power equipment in substation based on intelligent equipment** [13419-123]
- 13419 3I **A hybrid degradation index for characterizing the degradation state of proton exchange membrane fuel cells** [13419-3]
- 13419 3J **A progressive decomposition time series forecasting method for monitoring the voltage of energy storage batteries** [13419-72]
- 13419 3K **A novel numerical method for predicting the melting rate of phase change material by combining computational fluid dynamics and artificial neural network** [13419-157]
- 13419 3L **Constructing the polynomial model of power system in Matlab** [13419-29]
- 13419 3M **Optimisation study of PV grid-connected control based on cuckoo search algorithm** [13419-95]
- 13419 3N **Analysis of the time-varying law of preload force dispersion of guide rail bolt group under different factors** [13419-82]

- 13419 3O **Application of intelligent rain erosion system design and prediction of fatigue damage of wind power blade leading edge coating** [13419-193]
- 13419 3P **Meta structure over heterogeneous information network embedding** [13419-98]
- 13419 3Q **A multi-objective optimization algorithm for the configuration of energy storage systems with the rule-based charging: discharging control strategy** [13419-132]
- 13419 3R **Construction prospect analysis of regional reserve market and joint clearing analysis of spot market and reserve market** [13419-48]
- 13419 3S **Finite element analysis of surface hardening of tungsten wire by drawing process** [13419-143]
- 13419 3T **Design and research of general emerging business model for terminal power consumption based on knowledge graph** [13419-180]
- 13419 3U **Improving K-means++ algorithm with GMM based on shapelet temporal features and combined weights** [13419-168]
- 13419 3V **Multi-objective optimization analysis of an electric vehicle air-conditioning system based on AMESim and HEEDS** [13419-102]
- 13419 3W **Reliability research of ultra-long distance relay pumping and filling systems** [13419-10]
- 13419 3X **Identification method of abnormal working condition of equipment based on big data operation** [13419-155]
- 13419 3Y **Research on fault-tolerant control of three-level active power** [13419-112]
- 13419 3Z **Research status and development trend of insulating layer of high-temperature thin film sensor** [13419-59]
- 13419 40 **Development of flexible test system for hydraulic ordinary valve** [13419-92]
- 13419 41 **Study on proppant reflux law based on finite element simulation** [13419-77]
- 13419 42 **Research on control technology for AC filters based on voltage follow strategy** [13419-80]
- 13419 43 **The combined optimization model of purchasing and selling power based on CVaR** [13419-189]
- 13419 44 **Voltage controls spin reorientation transition in TmFeO₃ thin films** [13419-83]
- 13419 45 **Research on intelligent industrial television system for pumped storage power station** [13419-9]

- 13419 46 **Distributed photovoltaic communication security guardian with spatio-temporal feature collaborative modeling** [13419-97]
- 13419 47 **A modeling method for cyber-physical attacks on distributed photovoltaic systems based on probabilistic colored Petri nets** [13419-43]
- 13419 48 **Analysis of iterative carbon emission flow model in benchmark transmission systems** [13419-141]
- 13419 49 **Design of drilling engineering design system based on workflow technology** [13419-35]
- 13419 4A **Comprehensive testing system for pressure pulsation of cycloidal rotor pump** [13419-96]
- 13419 4B **Performance system of microbial fuel cells applied in bioretention systems** [13419-36]
- 13419 4C **Research on interface protocol between data equipment and communication unit of AMI** [13419-14]

Conference Committee

Conference General Chair

Shifeng Wang, Tibet University (China)

Technical Program Committee Chair

Qi Wu, Tibet University (China)

Publication Chairs

Ramesh K. Agarwal, Washington University in St. Louis (United States)

Yuanhao Wang, Hoffmann Institute of Advanced Materials (China)

Cristian Paul Chioncel, Universitatea Babeş-Bolyai (Romania)

Organizing Committee Chair

Yong Li, Tibet University (China)

Organizing Committee Members

Chun Du, Tibet University (China)

Xiong Yang, University of Science and Technology Beijing (China)

Dongye Zhao, Tibet University (China)

Technical Program Committee Members

Ismail Bin Musirin, Universiti Teknologi Mara (Malaysia)

Farhad Shahnia, Murdoch University (Australia)

Goh Pei Sean, Universiti Teknologi Malaysia (Malaysia)

Lim Bee Ying, Universiti Malaysia Perlis (Malaysia)

Sivakumar Palanisamy, Sri Shanmugha College of Engineering and
Technology (India)

Yang Tao, City University of Hong Kong (China)

Chiu Chuen Onn, Universiti Malaya (Malaysia)

Mustafa Mohammed Najm, Universiti Malaya (Malaysia)

Amnani Binti Shamjuddin, Universiti Teknologi Malaysia (Malaysia)

Qiliang Wang, The University of Nottingham (United Kingdom)

H. M. Arshad, University of Management and Technology Lahore
(Pakistan)

Mahima Khandelwal, CATRIN-RCPTM (Czech Republic)

Norrima Binti Mokhtar, Universiti Malaya (Malaysia)

Leong Kah Hon, Universiti Tunku Abdul Rahman (Malaysia)

Suraya Ahmad Kamil, Universiti Teknologi MARA (Malaysia)
Darmawaty Bt Mohd Ali, Universiti Teknologi MARA (Malaysia)
Yiyuan Zhang, The University of Hong Kong (China)
